

**Principle of operation:**

The technology is based on the principle of dielectric-barrier discharge. The device does not use any chemicals and does not produce any toxic substances. The electrode is exposed to a high electrical voltage, which produces a controlled dielectric-barrier discharge acting on elements in the air and creating a cold plasma of ions. These produced anions and free radicals that have proven anti-viral and anti-bacterial effects. These particles eliminate odours emitted by the human body, disrupting the olfactory organs of mosquitoes, making our bodies invisible to them.

**Conditions of use:**

**NOMAD MINUS VIRUS®** is most effective when it is placed in the centre of the room at chest height, or as close to people as possible. **NOMAD MINUS VIRUS®** creates a protective bubble around you containing ions created by microplasma, which provides anti-viral and anti-bacterial protection while eliminating odours.

**Maintenance:**

Charging time: 3 hours ; Battery life: 21 hours  
The device is compatible with external charging sources (computers, chargers, etc.)  
Clean with a dry rag

**The device includes:**

USB charging cable | Instructions | Protective textile pocket

Name	NOMÁD	Technology	Micro-plasma
Voltage	DC 5 V	Current	0.2 A
Power usage	<1 W	Weight	130 g
Size	131 x 85 x 32 mm	Operating temperature	10°C - 60°C
Colour	white	Ozone level	< 0.01 ppm
Concentration of neg. ions 10 cm from device		2*10 <sup>7</sup> / cm <sup>3</sup>	

LIFE IN COMFORT AND HARMONY  
WITH NATURE

NO VIRUSES | NO BACTERIA  
ELIMINATES **99,9%** OF CORONAVIRUS IN THE AIR\*

[www.nomad-minusvirus.com](http://www.nomad-minusvirus.com)

**NOMAD MINUS VIRUS®** is a biological decontamination device operating on the principle of microplasma with anti-viral and anti-bacterial properties as tested by the Pasteur Institute of Lille. NOMAD MINUSVIRUS® is 99.91%\* effective against human coronavirus based on testing performed by the Pasteur Institute of Lille.

**NOMAD MINUS VIRUS®** is a biological decontamination device that eliminates unwanted viruses, pathogens and bacterial from the air in all types of interior environments. It also eliminates unpleasant odours and is environmentally friendly.

- Features:**
- Effective against: viruses, bacteria, mosquitoes
  - Non-toxic
  - Environmentally and food-chain friendly
  - Suitable for pregnant women
  - USB charging
  - Battery life : Up to 21 hours
  - CE / EMC, REACH, RoHS certificates
  - 2-year warranty
  - Maximum indoor coverage : 165 square feet/15 m²

**Applications:**  
 NOMAD MINUS VIRUS® is specifically designed in terms of its shape and size to go with you and to protect you at work, when travelling, and at home.

- Potential uses:**
- At home
  - In the office
  - At reception
  - Healthcare facilities (doctor's offices, waiting rooms, pharmacies) - Transports (Car - Ambulances - Firefighter / Police vehicles, Train, Airplane)
  - Retail shops

\*The IQ CAPITAL tested by the Pasteur Institute of Lille Lille in France eliminates 99.91% of the HCoV-229E human coronavirus in laboratory conditions in 7 minutes and 30 seconds\*\*. The HCoV-229E human coronavirus tested on the device belongs to the same family of coronaviruses as SARS-CoV-19, which causes COVID-19 disease. \*\*0.54 m³ of enclosed space without air exchange
